A red light which approached gave the impression of a navigation light, slightly different from our own, at approximately 1000 yards.

Enemy aircraft started a curve of pursuit attack at 450 yards level, fine starboard quarter. Just before reaching this position enemy aircraft opened fire. Gunners immediately gave corkcrew to starboard and opened fire immediately at approximately 400 yards range. Fighter went down and exploded on the ground. Fighter recognised as single engine aircraft probably ME.109
